

## QUALITY ASSURANCE REQUIREMENTS

Actual functional test reports for electrical and/or mechanical equipment referencing purchase order number, specification number, contractor's name and address, and/or independent lab name and address, part number, part name, serial number, if applicable, must accompany each shipment to be delivered. An authorized representative of the vendor's **Quality** department shall validate these reports, by either an inspection stamp or signature.

**One copy of the test report is required to accompany the material.**
