

QUALITY ASSURANCE REQUIREMENTS

Subcontractor shall comply with requirements identified on the provided Weld/Heat Treat Review documentation. Failure to comply with established requirements may create unnecessary rework and any associated cost will be the responsibility of the subcontractor.

1. Subcontractor shall submit pre-fabrication documents identified in Weld/Heat Treat Review documentation to Purchasing for approval by Weld Engineer prior to award or work start, as applicable.
2. Subcontractor shall notify Purchasing prior to start of work and at any predetermined inspection points as identified in the Weld/Heat Treat Review documentation.
3. Subcontractor shall submit any specified test, inspection or process control documents identified in Weld/ Heat Treat Review documentation to Purchasing.

QUALITY NOTE 36
