

QUALITY ASSURANCE REQUIREMENTS

Lead sheets shall be identified per ASTM B749. Lead sheets 1/2" thick and over shall be marked along one edge with the alloy designation, manufacturer's brand name, and heat or lot number. The markings shall be made with non-water soluble ink or paint and shall be repeated at intervals of not greater than 3 ft. along the edge of the plate. For sheets less than 1/2" thick, the information shall be furnished on the packing container.

Any material received unmarked will be processed as nonconforming material.

QUALITY NOTE 13
